## **Template**

# **POPUP BANNER WALL** W/METAL FRAME

• 237" x 89.5"

If you want your image to wrap around the sides to hide the metal frame, then you'd extend your images past this mark

CUT LINE (237" X 89.5")

This is where the edges of the front of your image will sit.

#### Image

Artwork should be a vector PDF or images at 300dpi to avoid pixelated images. Please don't forget to embed all images.

#### Colour

Set your colour profile as CMYK instead of RGB, which cannot always be replicated. We **cannot** be responsible for variances in final printed colours. Printed samples are available at an additional cost.

#### Save File as PDF

Save files as PDF or Al (Adobe Illustrator) files.

Please outline all fonts and delete guidelines!

#### Additional Files

Please provide all font files and original image files if any editing is required. All PDF images must be embedded in the document.
